### Full-Stack Developer

---

Full Stack Developer with solid experience designing and deploying scalable web and mobile applications for industries such as fintech, travel, hospitality, and broadcasting. Skilled in Next.js, React, Flutter, Tailwind CSS, TypeScript, Prisma, Supabase, WordPress, and Git, I have successfully led projects and also worked independently, managing the full development cycle from planning to delivery. I focus on building secure, efficient, and responsive solutions, while standing out for adaptability, reliability, and a commitment to continuous learning to consistently deliver high-quality results.
